MEMORANDUM FOR: Chief, General Services

THRU: Executive, CD

SUBJECT: Reproduction of Germany's Underground, by
A. W. Dulles

1. Your approval is requested to reproduce, for library and training purposes, Germany's Underground, by A. W. Dulles, New York, Macmillan, 1947. At the present time, the CIA Library has a record of 4 copies, with only 2 available. One of the copies is attached.

2. The CIA Library has approximately 25 requests from various Agency components for copies of the book. It is suggested reading for intelligence officer training. The Library has tried all sources to procure additional copies. For example, the last copy we were able to buy took 9 months for action and cost \$5.00. The book is out of print. We have advertised for copies through cut-outs and placed the item on our want lists. The book is frequently used and requested.

3. We have asked Reproduction Division informally for price quotations on reproduction costs. These are:

100 copies	\$530	or	\$5.30 per copy
200 copies	\$590	or	\$2.95 per copy
300 copies	\$655	or	\$2.19 per copy

4. We believe that with the 25 requests on hand, and with the training requirements we may be receiving, 100 copies would satisfy our foreseeable needs. Mr. Dulles has been asked 1) whether the publisher has the original plates, and 2) whether he objects to reproduction of an item for which he holds copyright. In both cases, the answer was in the negative.
